

Israeli Dancing

Israeli dancing is fun because you get to do some of their fun dances like they do in Israel.

The kids are lucky because they get to learn dances and sometimes they get to perform them. Kids can perform the dances during the holidays and festivals. You are lucky to dance because some people don't have a chance to learn them.

It is so much fun. We are lucky that we can learn these Israeli dances. Lots of people sign up for dance classes because they are really interesting and really cool.

After you learn the Israeli dances you can perform them in front of your friends and family.
