

Nature Chug

Ben Dias

Nature is an elegant thing. As elegant as it is it is also a mystery. The Nature Chug gives us a chance to learn. Moreh Kritz is the instructor and in my years taking the chug has taught me many things. I truly loved the experience.

One thing that I was taught was that the burning bush that spoke to Moses was never on fire, but just the leaf colors. I learned that all of the plagues were just a chain reaction of nature. For Noah's Ark it was said that there were many rainstorms at a time.

These were all important things to know when I was in Hebrew School.
